

## 1.Overview

### Quick Details

Classification: Carbonate

Type: Zinc Carbonate

CAS No.: 3486-35-9

MF:  $\text{ZnCO}_3 \cdot 2\text{Zn(OH)}_2 \cdot 2\text{H}_2\text{O}$

EINECS No.: 222-477-6

Place of Origin: China (Mainland)

Grade Standard: Industrial Grade, Medicine Grade

Purity: 57.5%

Appearance: white powder

Application: astringent, skin protective, Desulphurization catalyst

Brand Name: DITAI

Model Number: zinc carbonate

Product name: basic zinc carbonate 57.5%

Color: White Color

Grade: Industrial Grade

Usage: astringent, skin protective, Desulphurization catalyst

Certificate: ISO9001

packing: 25kg/bag

Model Number: HRSF zinc carbonate

2.Packaging & Delivery

Packaging Details

25 KGS PP BAG, 25 TONS PER 20'S FCL WE CAN DO THE PACKAGE AS CUSTOMER'S REQUEST

Delivery Time

WHITN 7 DAYS AFTER CONFIRM OUR ORDER

3.Specification

Item	Item		
Model	First-grade Product	First-grade Product	Qualifi Product
Main content (based on Zn,based on dry products)≥	57.5	57	56.5
Ignition loss	25.0~28.0	25.0~30.0	25.0~3
Heavy metal (based on Pb) content≤	0.04	0.05	0.05
Moisture≤	2.5	3.5	5
Sulfate (based on S04) content≤	0.60	0.80	—
Fineness (75um experimental screen)≥	95.0	94.0	93.0
Cd content ≤	0.10	—	—
